

Evidence Building and Synthesis Research Effective Health Care Research Consortium

Annual Report

Implementation Year 1: 15 May 2011 to 14 May 2012

Background information

Title of RPC:	Effective Health Care Research Consortium
Reference number:	PO 5242
Period covered:	Implementation Year 1: April 2011 to March 2012
Name of lead institution and RPC Director:	Liverpool School of Tropical Medicine (LSTM) Paul Garner (Professor)
Report Date	28 June 2012

Achievements across the consortium¹

On decision making

The Consortium aims to increase the number of evidence-informed decisions by international and national decision makers. Within the context of the World Health Organization (WHO) Collaborating Centre, we have had a number of examples of clear demand from policy makers for our products, which we have generally delivered in a timely manner for particular windows of decision making. In WHO, Guideline development depends on both an up to date systematic review (of which Cochrane is often ideal) combined with Grading of Recommendations Assessment, Development and Evaluation GRADE tables – a formal method of assessing the evidence within the guideline. Successes include:

Artesunate versus quinine for severe malaria (Cochrane Review): rapid update with new African trial in children; providing WHO Guidelines Panel with the GRADE tables; drafting of wording of guideline update used by the panel to update the Global Malaria Treatment Guidelines to recommend artesunate in children as well as adults [requested by WHO].

Review team: UK.

Oral iron supplements for children in malaria-endemic areas (Cochrane Review): Author team presented the review to the NUGAG panel. Recommendations about iron supplementation changed. Review updated and GRADE tables used by WHO [WHO contract].

Review team: The Gambia, Israel.

Fluoroquinolones for treating typhoid and paratyphoid fever (Cochrane Review): Essential Drugs Committee used a report of the draft update analysis in decisions about gatifloxacin [update contracted by WHO].

Review team: Nigeria, Pakistan, UK.

Intermittent preventive treatment for malaria in children living in areas with seasonal transmission (Cochrane review): WHO Malaria Policy Committee used the GRADE analysis in their recommendation of this intervention [update requested by WHO].

Review team: Nigeria, UK.

Vaccines for preventing rotavirus diarrhea: doses (commissioned systematic review): WHO/GAVI Panel used this review to decide against a booster dose in their deliberations (recommendations not yet published). Contract to Enhance Reviews Ltd.

¹ Report for Cochrane Infectious Diseases Group is April 2010 to May 2012, as the work continued despite the gap in funding; report for partners is December 2010 to May 2012 as no funds and no activity in the gap period.

Nutritional supplements for people being treated for active tuberculosis (Cochrane Review): used by WHO Guidelines Panel making recommendations about nutritional supplements in tuberculosis. Author (David Sinclair) is a member of the Guidelines Panel.

Review team: India, South Africa, UK.

Other important reviews

Worth noting because of the topic, the methods, the results, or the teams preparing them.

Exploring the evidence relating Health and Conflict: interventions and outcomes: Cross government report published in 2010, released in 2011: addresses an important policy question.

Quality of private and public ambulatory health care in low- and middle-income countries: this analysis compared quality, and was important for highlighting that quality of care, rather than just access, coverage or cost, was important in this debate. Published in PLOS Medicine with about 6000 views and 800 PDF downloads to date.

Rapid diagnostic tests for *Plasmodium falciparum* malaria (Cochrane Diagnostic Test Accuracy Review): large analysis of 80 studies, important analysis using novel methods.

Artemisinin-based combination (ACT) therapy for treating uncomplicated *Plasmodium vivax* malaria (Cochrane Review): important review showing ACTs generally work well with *Plasmodium vivax*.

Developments using multi-media and social networking

- In India, the Consortium has engaged in using multi-media and social networking within their communities, including Face book (447 members) and the country-wide Cochrane Students' Journal Club, a student led, interactive learning initiative with 84 members.
- In China, Cochrane Review results are discussed regularly by a well known blogger in Shanghai, Dr Linan Chen (two of the blog posts have attracted over 20,000 hits each).
- In countries in Africa, younger staff are gaining experience in blogging, using the medium to promote specific events.
- In the UK, we are piloting short videos of interviews with existing authors about evidence-based practice and Cochrane Review results, to engage potential new authors.

Influencing the Cochrane Collaboration

- We developed a method of classifying reviews to indicate to the reader when a review was up to date, when it is waiting to be updated, and when the review topic was 'historical'. This is likely to be adapted across The Cochrane Collaboration. Details available on request.
- With the Norwegian Knowledge Centre, we have developed more accurate ways of writing abstracts, using language around uncertainty based on the formal Summary of Findings in each review. This is potentially a very important development to increase clarity and transparency. Details available on request.

Working with DFID

A DFID senior health adviser requested a one week coaching course in the principles and practice of research synthesis. Delivered by staff in Liverpool, this drew on the experiences of the entire Consortium. The adviser was able to question the evidence base for an emerging decision to prevent the use of injectable contraceptives in people with HIV and his intervention, demonstrating the recommendation was not well grounded, lead to its withdrawal (Malcolm McNeil, pers. com.).

We intend to use this, combined with the one-week course used with the Public Health Foundation of India in Delhi (Garner and Tharyan) as a basis for course we roll out across the Consortium, perhaps to be named *the McNeil Course in Evidence Based Decision Making*.

Gender equity impacts

We established a framework for gender monitoring (Annex 3).

RPC Lead Partner Manager and Deputy Manager in South Africa are female; in China, the two Associate Directors are women; in India, there were more new female authors than male; and three female editors were appointed across the consortium compared to two men. In addition there were two individuals who have worked with us for over 10 years who have received external recognition of their technical and scientific capacity.

Qian Xu has been a partner since the late 1990's, when she carried out some ground breaking work appointed as full member to HRP STAC in WHO (Shanghai partner, and collaborator since 1997).

Angela Oto'Ayo made Health Commissioner of Cross River State, Nigeria (Cochrane author, member of the Nigeria branch since 2000).

Patricia Graves has been appointed to the Malaria Policy Committee in The World Health Organization, which is the highest technical body advising on malaria.

Sarah Donegan, statistician: received Bill Silverman prize which was awarded for a PhD publication.

Selected partner highlights

Africa

Lead: South Africa Cochrane Centre/Stellenbosch Centre for Evidence Based Policy

- Belgian Red Cross asked Jimmy Volmink to lead the development of evidence-based guidelines (see <http://afam.redcross.be>).
- Won competitive bid from WHO to prepare a review in community based use of ACTs.
- Established "Evidence Assessments" in response to requests from stakeholders, with positive feedback: Western Cape Chief Director of Health Strategy and Planning, said they will "play an important role in influencing direction...".
- First GRADE workshop run.
- Establishing the Centre for Evidence-Based Policy at the University of Stellenbosch.
- Identifying a clear communication strategy, starting projects designed to influence decision making, and experimenting with multimedia and blogs.
- Demonstrating evidence of national demand, for example with the Provincial Health TB project, where the centre was requested by the Provincial TB Director to prepare summaries of the effects of GeneXpert and sputum induction.
- Established new partnership with the Centre for the Development of Best Practices in Health (CDBPH, Cameroon).
- Highly effective management of partners in Nigeria, Kenya, Cameroon and Ethiopia.

India

Lead: South Asian Cochrane Centre

- The Centre's national influence has led the Indian Council of Medical Research to invite systematic review proposals for funding.
- Initiated contact with the National Planning Commission of India and provided feedback on the National Five Year Plan.

- Formed alliance with the Centre for Innovation in Public Systems in Hyderabad to improve medical education across the country, and to work with States in embedding evidence in decision making. Meeting with State Commissioners held.
- High level of training and capacity building – over 15 programmes with nearly 500 people participating over the period.
- Formation of the South Asian Toxicology Group to pursue evidence-based policy and research in poisoning.
- Appointment of senior administrator had dramatically reduced the burden on the Director.

China

Lead: Chongqing Medical University

- Established link to an existing blogging project, the Health Information Blog, with one paper attracting over 5000 readers, and many posts.
- Feasibility study of translating abstracts from traditional into simplified Chinese – field work completed.

Cochrane Infectious Diseases Group & Liverpool Co-Ordination Team

- Appointed four new editors (from India, South Africa, The Gambia and USA).
- Several high impact reviews completed (see opening section).
- Editors meeting in September 2011.
- Strategic plan drafted and priority reviews identified.
- Ghana essential medicines project completed.

Effective Health and Organization of Care Group

- DECIDE framework for going from evidence to policy.
- Oslo “developing country satellite” established.
- SURE guidelines for policy briefs: Oslo provided support to seven African teams preparing policy briefs on priority topics. New initiative developed with Chile: PDQ reviews (“pretty darn quick”): www.PDQ-Evidence.org
- Established priority list of EPOC topics.
- Organizing a conference in ‘Evidence-Informed Policy making in LMICs’ in Addis Ababa 27-30 August 2012.

Lessons learnt

The partner contracting system is pragmatic and useful

In the inception phase, partners developed work plans with milestones and budgets for years 1-2. They report against indicators they specify in the contract every six months. This has allowed the Director to step in six months into the contract with one partner missing their targets, indicating they were likely to miss the agreed outputs at the end of Year 1 and the consequences of this (20% of budget withheld for Year 1, and Year 2 to be renegotiated). This has allowed remedial action to be instituted.

We considered outputs based financing and this is just not feasible.

The rate-limiting factor on most of the work is reduced technical support capacity

Cochrane Review methods are advancing all the time, and expectations are high. The rate-limiting factor on most of the review work currently is higher level advice, support and mentorship. The Director is already busy, and the loss of lecturer staff with the new programme has increased his work load. The advanced fellowship scheme (Annex 4) to increase Lead Partner and Partner support capacity, and one new lecturer post may provide longer term solutions; we are also using contractors to carry out some of the review work, but that too needs supervision.

Substantive strategy and management posts need underpinning scientific knowledge and skills

With our small team, the post of Chief Operating Officer had no understanding of the science, which meant there was very little this post could add to an already well-organised programme. The lesson learnt is that the assumption this post would help us achieve our outcomes was wrong, and in fact it has delayed Year 1 planning and progress, with concomitant increase in the Director's workload. We need now to recruit technical staff in to help advance the science with partners, and play catch-up with our plans and commitments. We anticipate it will be well into year 3 before this happens.

Obtain stakeholder views before you push!

We developed a DFID Research Newsfeed – a quarterly HTML email summarizing recently published systematic reviews and trials relevant to DFID's work with hypertext links through to the reviews (a "push" product). Feedback from advisers was lukewarm – they were already overburdened with email.

Logic models are useful in Cochrane Reviews

In three reviews in the editorial process, we have constructed logic models to help understand the intervention's mechanism, and relate this to the outcomes measured in the review. It is proving extremely helpful. Two of these reviews will be published later this year:

- Deworming drugs for soil-transmitted intestinal worms in children: effects on nutritional indicators, haemoglobin and school performance.
- Primaquine for reducing *Plasmodium falciparum* transmission.

Advocacy combined with training worked in increasing number of developing country editors

In 2008 we recognised our contribution to increasing the number of Cochrane authors from low- and middle-income countries, but that few were editors. This represents a more senior role, with engagement in review group editorial strategy, yet there was only one woman editor from the whole of Africa, for example, across all 52 review groups. The Consortium ran a multipronged approach, advocating co-ordinating editors consider this, and asking them to nominate people in Africa for editor training. The Lead Partner in Cape Town hosted a three day Editor's Training Workshop - the first ever in the Cochrane Collaboration. In the period reported, a total of five new editors from low- and middle-income countries have been appointed across review groups (two women, three men).

Outputs against log frame

IMPACT: More effective health care based on application of reliable research summaries	Indicator	Indicator	Target	Comment	Quantity
OUTCOME: Increased number of evidence-informed decisions by intermediary organisations and networks and national decision makers, that benefit the poor, including women	1	New or amended policies or guidelines influenced by Consortium products	1 global	Oral iron supplements for children in malaria areas (WHO guideline formed but not published yet)	1
			1 national	Better Medicines for Children – training and products commissioned by WHO for Ghana (UK)	1
	2	Major funding decisions by bilateral or multilateral agencies influenced by Consortium output	1	Rotavirus (Rotarix) vaccine-booster abandoned (through a commissioned review) WHO optimise guidelines for MCH task shifting influenced by our reviews Indirect: injectable contraceptives and risk taking in HIV questioned (through training Malcolm McNeil)	2
OUTPUT 1: High quality, up to date Cochrane or related systematic reviews relevant to improving health outcomes in the poor	1 ²	Number of systematic reviews relevant to the content and delivery of poverty-related health programmes: new Cochrane Reviews	10	15 See Productions section: 1.1a New Cochrane reviews	15
	2	Number of systematic reviews relevant to the content and delivery of poverty-related health programmes: updated Cochrane Reviews	5	9 See Productions section: 1.1b Updated Cochrane reviews	9
	3	Number of systematic reviews relevant to the content and delivery of poverty-related health programmes: qualitative reviews, scoping reviews, overviews	2	Quality of the private sector: PLOS Medicine Conflict and health scoping review: Government report	2
OUTPUT 2: Accessible products for knowledge uptake	1	Number of “push” products (summary series)	Maintained (4)	Evidence Update for Africa Health Chinese Journal of Evidence Based Medicine SUPPORT summaries International Journal of Epidemiology	4
			New (1)	Evidence Assessment series (South Africa) Health prescriptions in MCH (China)	2
	2	Number of reviews, training or synthetic technical products commissioned by national decision makers or intermediary organizations or networks (“pull” products)	New (2)	Better Medicines for Children – training and products commissioned by WHO for Ghana (UK) TB Province Project on new diagnostic technologies (South Africa)	2
	3	Stakeholder satisfaction	-	To be measured in a survey in Year 2 or 3	-

² We outperformed because we report on six months before the RPC started, and because production was running during the inception period with reviews that were already in progress.

OUTPUT 3: RPC partner institutions and researchers in the South have increased competence for research	1	Number of institutions with a developed strategy and code of conduct to promote research integrity	None expected for Year 1	Programme still under development	-		
	2	Number of new Cochrane editors appointed or new authors completing reviews from Southern Institutions ³	New editors (1)	Total is 5 ⁴		F 2	M 3
			New first authors (8) ⁵	Total is 14	India Africa China CIDG	F 3 0 0 4	M 3 1 0 3
		Number of Partners with multiplier funding at least matching DFID investment	None expected in year 1	-	-		

³ EPOC excluded as separate fellowship programme.

⁴ We outperformed probably as a result of the RPC Editor Training and Advocacy Initiative in 2010.

⁵ The log frame states authors, but we have reported only on first authors, publishing their first Cochrane review.

Products

Section 1: Publications

Section 2: Editorial Data

2.1 New authors publishing a Cochrane review within reporting period ¹⁰		
Name of new author	Gender	Institution
AFRICA: South Africa (Network Lead & Partner)		
Anel Schoonees***	Female	Stellenbosch University
SOUTH ASIA: India (Network Lead)		
Dr Kalpana Sridharan***	Female	Child and Adolescent Care Centre, Chennai
Dr Anupam Mishra***	Female	King George Medical University, Lucknow
Dr K Srinivasa Babu	Male	Christian Medical College, Vellore Tamil Nadu
Dr Praveen Kumar***	Male	Postgraduate Institute of Medical Education and Research, 16012 Chandigarh
Mr Narasimman Swaminathan	Male	Father Muller Medical College, 575002 Mangalore, Karnataka
Amita Ray***	Female	Father Muller Medical College, 575002 Mangalore, India
Mr Sujoy Ray	Male	Kasturba Medical College, 576104 Manipal, Karnataka
Dr Aneesh Thomas George	Male	Christian Medical College, Vellore, Tamil Nadu

¹⁰ *** = First authors, publishing their first Cochrane review (referred to in log frame).

Nitya Gogtay	Female	KEM Hospital, Mumbai
Siddhartha Gogia***	Male	Max Hospital, Gurgaon
Adhikary Sanjib D***	Male	Christian Medical College, Vellore, Tamil Nadu
Thiruvankatarajan V	Male	Christian Medical College, Vellore, Tamil Nadu
Roshni Mohan	Female	Madras Medical College, Chennai
Paneerselvan D	Male	Madras Medical College, Chennai
Kiran Ejaz	Male	Manipal University
UK: CIDG (Consortium Lead office, Liverpool)		
Bianca Pluess***	Female	Public Health and Epidemiology, Swiss Tropical and Public Health Institute, Switzerland
Vittoria Lutje***	Female	Liverpool School of Tropical Medicine, UK
Bernaola Aponte***	Male	Suárez Angamos Hospital, Peru
van Eijk***	Female	Liverpool School of Tropical Medicine, UK
Gregory Fox***	Male	Woolcock Institute of Medical Research, University of Sydney, Australia
Don Mathanga***	Male	Malaria Alert Center, College of Medicine, University of Malawi, Malawi
Elizabeth Lutge***	Female	Health Systems Trust, South Africa

2.2 New Cochrane Editors appointed this year			
Date appointed	Name of new Editor	Gender	Institution
AFRICA: South Africa (Network Lead & Partner)			
Sep 2012	Olalekan Uthman (Infectious Diseases Group)	Male	Stellenbosch University
Sep 2012	Taryn Young (Sexually Transmitted Infections Review Group)	Female	Stellenbosch University and SA Cochrane Centre
Apr 2010	Joseph Okebe (Cochrane Infectious Diseases Group)	Male	Medical Research Council Laboratories, Fajara, Banjul, Gambia
SOUTH ASIA: India (Network Lead)			
Sep 2011	Thambu David Sudarsanam (Infectious Diseases Group)	Male	CMC, Vellore
Jan 2012	Suneeta Mittal (Pregnancy and Childbirth Group)	Female	All India Institute of Medical Sciences, New Delhi
UK: CIDG (Consortium Lead office, Liverpool)			
Apr 2011	Karen Steingart	Female	Dept. of Health Services, University of

	(Infectious Diseases Group)		Washington, USA

Section 7: Events, Training, Meetings

7.1 International conference papers/posters		
Month & Year	Title of paper/poster	Name and location of conference
AFRICA South Africa (Network Lead & Partner)		
31 August 2011	Kredo T. Alignment and Agreement: current status of clinical practice guidelines in SADC	G.I.N. conference, Seoul, Korea
20-22 June 2011	Kredo T. Accessing evidence-based resources: introduction to The Cochrane Collaboration	2011 HIV/AIDS Twinning Centres Partners Meeting - Health and Social Services Professions Education, Johannesburg
9-12 Oct 2011	Abrams A. The Pan African Clinical Trials Registry: Growth and capacity building	European and Developing Countries Clinical Trial Partnership 6th Forum, Addis Ababa, Ethiopia
26-30 Sep 2011	Abrams A. The Pan African Clinical Trials Registry: Year two, an update for AVAREF	African Vaccines and Regulatory Forum Meeting, Maputo, Mozambique
30 Aug 2011	Abrams A. The Pan African Clinical Trials Registry Global Information Systems Mapping Component: a first	Presentation to the European and Developing Countries Clinical Trials Partnership Hague Office, Cape Town
24-26 Oct 2011	Abrams A. The Pan African Clinical Trials Registry – an open access resource	BMJ Open Access Africa Conference. Kumasi, Ghana
19-22 Oct 2011	Rohwer A, Young T. Building capacity in EBHC. What is happening in the African region	19 th Cochrane Colloquium, Madrid, Spain
19-22 Oct	Abrams A, Pienaar E. Threading the needle we found in	19th Cochrane Colloquium, Madrid, Spain

2011	the haystack – identifying ongoing trials with the Pan African Clinical Trials Registry	
19-22 Oct 2011	Schoonees A, Young T, Volmink J. Are claims made in advertisements of nutritional supplements in South African women's magazines supported by research evidence	19th Cochrane Colloquium, Madrid, Spain
19-22 Oct 2011	Abrams A. Filled gaps? Data after a year of the Pan African Clinical Trials Registry efforts to increase understanding and awareness of the child-focused clinical trial landscape	19th Cochrane Colloquium, Madrid, Spain
19-22 Oct 2011	Kredo T, Gerristen A, van Heerden J, Conway S, Siegfried N. Alignment and Agreement: current status of clinical practice guidelines in SADC	19th Cochrane Colloquium, Madrid, Spain
9-12 Oct 2011	Nwachukwu C, Mbuagbaw L, Meremikwu M, Young T. Capacity building for research synthesis and conduct of Cochrane systematic reviews in Africa	European and developing Countries Clinical Trial Partnership 6th Forum, Addis Ababa, Ethiopia
7-10 June 2011	Svensson E, van der Walt J-S, Barnes K, Cohen K, Kredo T, Sinxadi P, Karlsson M, Denti P. Mega-model of nevirapine population pharmacokinetics	Population Approach Group in Europe (PAGE) Conference, Athens, Greece
7-10 June 2011	van der Walt J-S, Kredo T, Wiesner L, Maartens G, Cohen K, Smith P, Karlsson MO, Barnes KI. The effect of nevirapine-based antiretroviral therapy on the population pharmacokinetics of artemether and dihydroartemisinin in HIV-infected adults	Population Approach Group in Europe (PAGE) Conference, Athens, Greece
24 Nov 2011	Rohwer A, Young T. EBHC curriculum development: Where are we?	CEBHA: 1 st annual EBHC Symposium, Kampala, Uganda
24 Nov 2011	Okwundu C. GRADE: What is the hype about?	CEBHA: 1 st annual EBHC Symposium, Kampala, Uganda
24 June 2011	Young T. What is Evidence-based Health Care and why do we need it?	Polytechnic of Namibia, Windhoek, Namibia
28 Nov 2011	Young T. Evidence-based Research Practice	AfriNEAD 3rd Symposium, Victoria Falls, Zimbabwe
CHINA: Chongqing (Network Lead)		
Apr 2012	Census of centenarians' lifestyle in Chongqing, China	Dubai, World Congress of Cardiology 2012 Poster Presentations e159,P717
SOUTH ASIA: India (Network Lead)		
19-22 Oct 2011	Igniting minds: Use of Cochrane resources as educational tools for training medical students in developing countries	19th Cochrane Colloquium, Madrid, Spain http://2011.colloquium.cochrane.org/abstracts/igniting-minds-use-cochrane-resources-educational-tools-training-medical-students-developi
19-22 Oct 2011	Credence: creation of reliable evidence in developing countries by continuous enabling	19th Cochrane Colloquium, Madrid, Spain http://2011.colloquium.cochrane.org/abstracts/a4o2-credence-creation-reliable-evidence-developing-countries-continuous-enabling
19-22 Oct 2011	From novice to expert to mentor: Increasing participation in the Cochrane Collaboration in low and middle income	19th Cochrane Colloquium, Madrid, Spain http://2011.colloquium.cochrane.org/scientific-

	countries	programme/pre-and-post-colloquium-events
UK: CIDG (Consortium Lead office, Liverpool)		
19-22 Oct 2011	Sarah Donegan, Paula Williamson, Umberto D'Alessandro, Catrin Tudur-Smith. Exploring treatment by covariate interactions in mixed treatment comparison meta-analysis: individual patient-level covariates versus aggregate trial-level covariates	19 th Cochrane Colloquium, Madrid, Spain
19-22 Oct 2011	Anne-Marie Stephani, David Sinclair, Paul Garner. Helping readers understand review update status: pilot of a simple system	19 th Cochrane Colloquium, Madrid, Spain
19-22 Oct 2011	Vittoria Lutje, Annette Gerritsen, Nandi Siegfried. Methodological quality of malaria RCTs conducted in Africa	19 th Cochrane Colloquium, Madrid, Spain

7.2 Other conference papers/posters including proceedings		
Month and year	Title of paper/poster	Name and location of conference
AFRICA: Kenya (Network Partner)		
Nov 2011	Systematic reviews: an evidence resource for the family physician	Kenya Association of Family Physicians Annual scientific conference, Nairobi
Feb 2012	Evidence-based practice: where is the evidence	Kenya Obstetrical and Gynecological Society's annual scientific conference, Nairobi
AFRICA: Nigeria (Network Partner)		
11-15 Mar 2012	Priority Setting for Systematic Reviews in Nigeria	Association of Public Health Physicians of Nigeria Annual Conference, Calabar, Cross River State
AFRICA: South Africa (Network Lead & Partner)		
26 Oct 2011	Abrams A. Navigating ethics issues at the intersection between bio-medical and qualitative research	Panel on methodologies in child-related qualitative research. University of Cape Town, Postgraduate Research Day
19-20 Oct 2011	Abrams A. The Pan African Clinical Trials Registry (www.pactr.org) – monitoring child-health related trial activity	MRC Research Day, Cape Town
19-20 Oct 2011	Abrams A. Adolescent trial experiences – A pilot study	MRC Research Day, Cape Town
7-10 June 2011	de Waal R, Workman L, Norman J, Kredo T, Smith P, Blockman M, Cohen K. Therapeutic drug monitoring of antiretrovirals – initial experience in South Africa	SA AIDS Conference, Durban
2-4 Mar 2011	Kredo T. Artemether-lumefantrine and antiretroviral therapy in HIV-infected patients: pharmacokinetic and safety study	Annual ACT Consortium Meeting, Peninsula Hotel, Cape Town
5 Sep 2011	Abrams A. Something is not happening here: Cross-disciplinary issues in qualitative research at a biomedical setting	Anthropology, Southern Africa Conference, Stellenbosch

17 Aug 2011	Rohwer A, Young T. Situational analysis of EBHC activities in Africa	Stellenbosch University Academic Year Day, Cape Town
17 Aug 2011	Ferreira A, Young T, Mathews C, Zunza M. Partner notification for STDs	Stellenbosch University Academic Year Day, Cape Town
20 May 2011	Rohwer A, Young T. Antispasmodics for labour (systematic review)	Interdisciplinary Health Sciences Colloquium for Master's Graduates
20 May 2011	Schoonees A, Visser J, Musekiwa A, Volmink J. Pycnogenol for the treatment of chronic disorders (systematic review)	Interdisciplinary Health Sciences Colloquium for Master's Graduates
17 Aug 2011	Schoonees A, Visser J, Musekiwa A, Volmink J. Pycnogenol for the treatment of chronic disorders (systematic review)	Stellenbosch University, Faculty of Health Sciences Academic year day
CHINA: Chongqing (Network Lead)		
Apr 2012	Recommended diet for boarding school of rural students in Southwest area	Beijing, China CDC
Dec 2011	Study on relationship between puberty development time phase and obesity of children in Chongqing city	Beijing, The 9 th Chinese Preventive Medicine Association child and adolescent health branch conference
SOUTH ASIA: India (Network Lead)		
July 2011	Tharyan P. Finding research that you can trust	Regional symposium on Evidence in health care: from research to policy: University of Malaya. Petaling Jaya, Kuala Lumpur, Malaysia
Sep 2011	Tharyan P. Evaluating Therapy- The role of Systematic Reviews and Meta-analyses	Regional Symposium on Rational Antibiotic Use. CMC Vellore
